NEW

6000 Gallon Double Wall Tank
DW6000-120

Den Hartog Industries, Inc. is proud to present a new addition to our Dualline tank line. The 6000 gallon Dualline is a freestanding double wall vertical tank with a flat bottom for indoor or outdoor stationary applications. Double wall construction provides containment in the event the inner or primary tank is compromised. An EPDM elastic seal is standard and seals the primary tank to the secondary tank to prevent dirt and moisture from entering the containment space between tanks.

Dualline
BY DEN HARTOG INDUSTRIES, INC.

FEATURES:

- Furnished with a 16" vented lid assembly as standard.
- Three fitting flats are provided on the top for custom tank plumbing.
- Tanks manufactured from linear low density polyethylene with U.V. stabilizers.
- Standard colors are white, yellow, and black. Consult factory for optional colors.
- Designed for the containment of all chemicals rated for contact with polyethylene. Standard weight tank is designed for chemicals with a specific gravity of 1.7. Consult the Application Guideline Manual for known compatible chemicals and service temperatures. FDA compliant materials are available.

SPECIFICATIONS:

Overall Tank Dimensions: 120" diameter x 191" tall

Shipping weight of tank: 2951 lbs

Tank UPC: 768570-443107
